Analytic subject index

AC susceptibility, of $Er_2Fe_{17}C_x$
– Magnetic and crystallographic structural changes in ternaries of the type $Er_2Fe_{17}C_x$ - Kou et al. 168 (1991) 181
Al clusters
– Electronic structure of negatively charged aluminium clusters - Rubio et al. 168 (1991) 32
Alkali halides, bulk modulus
– An overlap repulsive interaction in ionic molecules and crystals - Ali and Hasan 168 (1991) 121
Alkali halides, cohesive energy
– An overlap repulsive interaction in ionic molecules and crystals - Ali and Hasan 168 (1991) 121
Alkali metals, liquid
– The pair distribution functions of the liquid alkali metals - Gonzalez et al. 168 (1991) 39
Anharmonic NH_3 librations
– Neutron quasielastic scattering results for $Me(NH_3)_6(XY_4)_2$, $Me(NH_3)_6(XY_3)_2$ and $Me(NH_3)_6X_2$ compounds, as compared with the calorimetric and Raman line width data - Janik et al. 168 (1991) 45
Antiferromagnetism, $ErGa_2$
– Magnetic ordering in $Er_{1-x}U_xGa_2$ systems - Markin et al. 168 (1991) 197

$(Ba,K)BiO_3$
– Vibrational properties of $Ba_{1-x}K_xBiO_3$ - Lee and Deymier 168 (1991) 268
Be
– Mössbauer study of iron diffusion in beryllium - Sepiol et al. 168 (1991) 159
Birefringence, circular and axial
– The violation of parity and reversality in molecular ensembles I - Evans 168 (1991) 9
Birefringence, field induced
– The violation of parity and reversality in molecular ensembles I - Evans 168 (1991) 9
Bulk modulus, alkali halides
– An overlap repulsive interaction in ionic molecules and crystals - Ali and Hasan 168 (1991) 121

Carriers, velocity distribution
– Velocity redistribution of carriers in semiconductors induced by a laser beam and collisions - Zielinska-Kaniasty 168 (1991) 219
Charge-transfer transitions
– Origin of the magneto-optical properties of iron garnets - Moskvin et al. 168 (1991) 187
$CoCl_2NC_5H_5$
– Mössbauer structural studies on the series MCl_2Py_2 (M = Co, Ni; Py = NC_5H_5) - Elmassalami and Thiel 168 (1991) 137
Cohesive energy, alkali halides
– An overlap repulsive interaction in ionic molecules and crystals - Ali and Hasan 168 (1991) 121
$Co(NH_4)_2(SO_4)\cdot 6H_2O$
– EPR and optical absorption studies of a VO^{2+}-doped — single crystal - Misra et al. 168 (1991) 170

CoO, X-ray emission
– X-ray emission spectra and valence band structure of the 3d transition metal oxides - Galakhov et al. 168 (1991) 163
$CsNiF_3$, magnetization
– Finite chain results for the magnetization and specific heat of $CsNiF_3$ - Campana et al. 168 (1991) 153
$CsNiF_3$, specific heat of
– Finite chain results for the magnetization and specific heat of $CsNiF_3$ - Campana et al. 168 (1991) 153
CuO, X-ray emission
– X-ray emission spectra and valence band structure of the 3d transition metal oxides - Galakhov et al. 168 (1991) 163

3d transition metal oxides
– X-ray emission spectra and valence band structure of the — - Galakhov et al. 168 (1991) 163
Defects, in disordered surfaces
– The shift of surface phonon dispersion curves due to defects in alloy disordered surfaces - Khater et al. 168 (1991) 273
Density functional calculation
– Electronic structure of negatively charged aluminium clusters - Rubio et al. 168 (1991) 32
Density of states, phonon
– Vibrational properties of $Ba_{1-x}K_xBiO_3$ - Lee and Deymier 168 (1991) 268
Density of states, vibrational
– Vibrational properties of $Ba_{1-x}K_xBiO_3$ - Lee and Deymier 168 (1991) 268
Deuterium, structure factor of
– Neutron diffraction study of deuterium: importance of the inelastic scattering corrections - Zoppi 168 (1991) 177
Dielectric function
– Perturbational analysis of plasmon decay in jellium - Bachlechner et al. 168 (1991) 104
Drift velocity
– Light-induced drift of electrons - Zielinska-Kaniasty 168 (1991) 225

Effective mass, polaron
– Polaron effective mass and binding energy in a semiconductor heterostructure - Riera et al. 168 (1991) 211
Electrical phase transitions
– A Monte Carlo renormalization group study of zero and finite temperature conductivity of a three-phase system - El-Misiery et al. 168 (1991) 128
Electrical resistivity, high-T_c superconductors
– Thermally assisted flux flow in high-T_c supercnductors - Przelozny and Finlayson 168 (1991) 236
Electrical resistivity, YFe_4Al_8
– Crystal structure, magnetic and electrical properties of YFe_4Al_8 single crystals - Chełkowski et al. 168 (1991) 149
Electron affinity
– Electronic structure of negatively charged aluminium clusters - Rubio et al. 168 (1991) 32
Electron drift, light-induced
– Light-induced drift of electrons - Zielinska-Kaniasty 168 (1991) 225
Electron gas, 3-D, homogeneous
– Perturbational analysis of plasmon decay in jellium - Bachlechner et al. 168 (1991) 104

Electronic structure
– X-ray emission spectra and valence band structure of the 3d transition metal oxides - Galakhov et al. 168 (1991) 163
Electronic structure, B and P in Fe
– On the electronic states of metalloid atoms in metal–metalloid systems - Stepanyuk et al. 168 (1991) 278
Electronic structure, B and P in Ni
– On the electronic states of metalloid atoms in metal–metalloid systems - Stepanyuk et al. 168 (1991) 278
Energy gap, photoconductivity
– Photoconductivity in tin sulphide single crystals - Elkorashy 168 (1991) 257
Envelope functions
– On the theory of — in lattice-matched heterostructures - Cuypers and Van Haeringen 168 (1991) 58
EPR
– — study of a single crystal of Mn^{2+}-doped $Sr(CH_3COO)_2 \cdot \frac{1}{2}H_2O$ at 295, 77 and 4.2 K - Misra and Korczak 168 (1991) 143
– — and optical absorption studies of a VO^{2+}-doped $Co(NH_4)_2(SO_4)_2 \cdot 6H_2O$ single crystal - Misra et al. 168 (1991) 170
(Er,U)Ga_2
– Magnetic ordering in $Er_{1-x}U_xGa_2$ systems - Markin et al. 168 (1991) 197
$Er_2Fe_{17}C_x$
– Magnetic and crystallographic structural changes in ternaries of the type — - Kou et al. 168 (1991) 181

1/f noise, electric-field dependence
– On the field-dependence of $1/f$ noise - Van de Roer 168 (1991) 53
Fe, diffusion in Be
– Mössbauer study of iron diffusion in beryllium - Sepioł et al. 168 (1991) 159
FeO, X-ray emission
– X-ray emission spectra and valence band structure of the 3d transition metal oxides - Galakhov et al. 168 (1991) 163
Ferromagnetism, $NdCu_5$
– Magnetism and crystal field in $NdCu_5$ - Diviš et al. 168 (1991) 251
Ferromagnetism, UGa_2
– Magnetic ordering in $Er_{1-x}U_xGa_2$ systems - Markin et al. 168 (1991) 197
Flux flow, thermally assisted
– Thermally assisted flux flow in high-T_c supercnductors - Przelozny and Finlayson 168 (1991) 236

G_2As, 1/f noise
– On the field-dependence of $1/f$ noise - Van de Roer 168 (1991) 53

Heat of formation
– Tight-binding calculations of structural energetics of transition metal–carbides - Le et al. 168 (1991) 285
Helium II
– Interaction of second sound acoustic waves with a counterflow-induced turbulent field - Fiszdon et al. 168 (1991) 93

Hematite
– Study of the Morin transition in nearly perfect crystals of — by diffraction and topography - Kvardakov et al. 168 (1991) 242
Heterostructures, lattice matched
– On the theory of envelope functions in lattice-matched heterostructures - Cuypers and Van Haeringen 168 (1991) 58
High-T_c superconductors
– Thermally assisted flux flow in high-T_c supercnductors - Przelozny and Finlayson 168 (1991) 236
– Vibrational properties of $Ba_{1-x}K_xBiO_3$ - Lee and Deymier 168 (1991) 268
Hooge–Kleinpenning model
– On the field-dependence of $1/f$ noise - Van de Roer 168 (1991) 53
Hydrogen
– Neutron spin echo measurements on dense — gas - Verkerk et al. 168 (1991) 1

Inelastic neutron scattering, $NdCu_5$
– Magnetism and crystal field in $NdCu_5$ - Diviš et al. 168 (1991) 251
Inelastic scattering corrections
– Neutron diffraction study of deuterium: importance of the — - Zoppi 168 (1991) 177
Interaction, ion–ion
– An overlap repulsive interaction in ionic molecules and crystals - Ali and Hasan 168 (1991) 121
Interaction, Van der Waals
– An overlap repulsive interaction in ionic molecules and crystals - Ali and Hasan 168 (1991) 121
Interstitial atoms
– Magnetic and crystallographic structural changes in ternaries of the type $Er_2Fe_{17}C_x$ - Kou et al. 168 (1991) 181
Iron garnets
– Origin of the magneto-optical properties of — - Moskvin et al. 168 (1991) 187
Ising spin glass
– Probability distribution of local polarization in quantum glasses - Tadić et al. 168 (1991) 85

Jellium
– Perturbational analysis of plasmon decay in — - Bachlechner et al. 168 (1991) 104
Jellium model
– Electronic structure of negatively charged aluminium clusters - Rubio et al. 168 (1991) 32
Josephson junction
– On the thermodynamics of a superconducting ring interrupted by a weak superconducting junction III - De Wolff and De Bruyn Ouboter 168 (1991) 67

Liquid metals, structure of
– The pair distribution functions of the liquid alkali metals - Gonzalez et al. 168 (1991) 39
Local-polarization distribution
– Probability distribution of local polarization in quantum glasses - Tadić et al. 168 (1991) 85

Magnetic anisotropy, $R(Co,Fe)_4B$
– Magnetic behaviour of the 3d sublattice in $RCo_{4-x}Fe_xB$, where R = Gd, Dy, Ho, Er - Drzazga 168 (1991) 115
Magnetic ordering
– — in $Er_{1-x}U_xGa_2$ systems - Markin et al. 168 (1991) 197

Magnetic susceptibility, YFe_4Al_8
– Crystal structure, magnetic and electrical properties of YFe_4Al_8 single crystals - Chełkowski et al. 168 (1991) 149
Magnetization, $CsNiF_3$
– Finite chain results for the magnetization and specific heat of $CsNiF_3$ - Campana et al. 168 (1991) 153
Magnetization, $NdCu_5$
– Magnetism and crystal field in $NdCu_5$ - Diviš et al. 168 (1991) 251
Magnetization, $R(Co,Fe)_4B$
– Magnetic behaviour of the 3d sublattice in $RCo_{4-x}Fe_xB$, where R = Gd, Dy, Ho, Er - Drzazga 168 (1991) 115
Magneto-optical effects
– Origin of the magneto-optical properties of iron garnets - Moskvin et al. 168 (1991) 187
Metal–metalloid systems
– On the electronic states of metalloid atoms in — - Stepanyuk et al. 168 (1991) 278
MnO, X-ray emission
– X-ray emission spectra and valence band structure of the 3d transition metal oxides - Galakhov et al. 168 (1991) 163
Mobility fluctuations
– On the field-dependence of $1/f$ noise - Van de Roer 168 (1991) 53
Morin transtion
– Study of the Morin transition in nearly perfect crystals of hematite by diffraction and topography - Kvardakov et al. 168 (1991) 242
Mössbauer spectroscopy
– Determinableness of the reduced frequencies from the observable diffusional self-correlation functions - Ruebenbauer et al. 168 (1991) 80
– Mössbauer structural studies on the series MCl_2Py_2 (M = Co, Ni; Py = NC_5H_5) - Elmassalami and Thiel 168 (1991) 137
– Mössbauer study of iron diffusion in beryllium - Sepioł et al. 168 (1991) 159

$NdCu_5$
– Magnetism and crystal field in — - Diviš et al. 168 (1991) 251
Neutron diffraction
– Study of the Morin transition in nearly perfect crystals of hematite by diffraction and topography - Kvardakov et al. 168 (1991) 242
Neutron diffractions
– Neutron diffraction study of deuterium: importance of the inelastic scattering corrections - Zoppi 168 (1991) 177
Neutron scattering
– Neutron spin echo measurements on dense hydrogen gas - Verkerk et al. 168 (1991) 1
Neutron scattering, quasielastic
– Neutron quasielastic scattering results for $Me(NH_3)_6(XY_4)_2$, $Me(NH_3)_6(XY_3)_2$ and $Me(NH_3)_6X_2$ compounds, as compared with the calorimetric and Raman line width data - Janik et al. 168 (1991) 45
– Determinableness of the reduced frequencies from the observable diffusional self-correlation functions - Ruebenbauer et al. 168 (1991) 80
Neutron spin echo technique
– Neutron spin echo measurements on dense hydrogen gas - Verkerk et al. 168 (1991) 1

NH_3 groups
– Neutron quasielastic scattering results for $Me(NH_3)_6(XY_4)_2$, $Me(NH_3)_6(XY_3)_2$ and $Me(NH_3)_6X_2$ compounds, as compared with the calorimetric and Raman line width data - Janik et al. 168 (1991) 45
$NiCl_2NC_5H_5$
– Mössbauer structural studies on the series MCl_2Py_2 (M = Co, Ni; Py = NC_5H_5) - Elmassalami and Thiel 168 (1991) 137
NiO, X-ray emission
– X-ray emission spectra and valence band structure of the 3d transition metal oxides - Galakhov et al. 168 (1991) 163
NMR line shape
– Probability distribution of local polarization in quantum glasses - Tadić et al. 168 (1991) 85
Nuclear relaxation
– The two-level systems role in — at low temperatures - Buishvili et al. 168 (1991) 205

One-component plasma structure factor
– Specific heats of liquid transition metals calculated from the temperature derivative of the — - Yokoyama and Naito 168 (1991) 229
Optical absorption
– EPR and — studies of a VO^{2+}-doped $Co(NH_4)_2(SO_4)_2 \cdot 6H_2O$ single crystal - Misra et al. 168 (1991) 170

Pair distribution function
– The pair distribution functions of the liquid alkali metals - Gonzalez et al. 168 (1991) 39
Parity violation
– The violation of parity and reversality in molecular ensembles I - Evans 168 (1991) 9
Percolation theory
– A Monte Carlo renormalization group study of zero and finite temperature conductivity of a three-phase system - El-Misiery et al. 168 (1991) 128
Phase transition, magnetic
– Mössbauer structural studies on the series MCl_2Py_2 (M = Co, Ni; Py = NC_5H_5) - Elmassalami and Thiel 168 (1991) 137
Phase transition, structural
– Mössbauer structural studies on the series MCl_2Py_2 (M = Co, Ni; Py = NC_5H_5) - Elmassalami and Thiel 168 (1991) 137
Phonon systems, one-dimenstional disturbed
– Mori approach to thermal conductivity in disturbed one-dimensional phonon systems - Chvosta and Wagner 168 (1991) 291
Photoconductivity
– — in tin sulphide single crystals - Elkorashy 168 (1991) 257
Plasmon decay
– Perturbational analysis of — in jellium - Bachlechner et al. 168 (1991) 104
Polarons
– Polaron effective mass and binding energy in a semiconductor heterostructure - Riera et al. 168 (1991) 211
Polymorphism
– Neutron quasielastic scattering results for $Me(NH_3)_6(XY_4)_2$, $Me(NH_3)_6(XY_3)_2$ and $Me(NH_3)_6X_2$ compounds, as compared with the calorimetric and Raman line width data - Janik et al. 168 (1991) 45

Potential barriers in superconducting junctions
– Quasiparticle current in a superconducting junction with two potential barriers at the metal interfaces - Ovsyannikov and Babayn 168 (1991) 239

Quantum glass
– Probability distribution of local polarization in quantum glasses - Tadić et al. 168 (1991) 85
Quasiparticle current
– — in a superconducting junction with two potential barriers at the metal interfaces - Ovsyannikov and Babayn 168 (1991) 239

$R(Co,Fe)_4B$, R = Gd, Dy, Ho, Er
– Magnetic behaviour of the 3d sublattice in $RCo_{4-x}Fe_xB$, where R = Gd, Dy, Ho, Er - Drzazga 168 (1991) 115
Reversality violation
– The violation of parity and reversality in molecular ensembles I - Evans 168 (1991) 9
$R_3Fe_{15}O_{12}$
– Origin of the magneto-optical properties of iron garnets - Moskvin et al. 168 (1991) 187

Second sound
– Interaction of — acoustic waves with a counterflow-induced turbulent field - Fiszdon et al. 168 (1991) 93
Selective laser excitation
– Light-induced drift of electrons - Zielinska-Kaniasty 168 (1991) 225
Self-correlation functions, diffusional
– Determinableness of the reduced frequencies from the observable diffusional self-correlation functions - Ruebenbauer et al. 168 (1991) 80
Self-diffusion
– Neutron spin echo measurements on dense hydrogen gas - Verkerk et al. 168 (1991) 1
Semiconductor carriers
– Velocity redistribution of carriers in semiconductors induced by a laser beam and collisions - Zielinska-Kaniasty 168 (1991) 219
Semiconductor heterostructures
– Polaron effective mass and binding energy in a semiconductor heterostructure - Riera et al. 168 (1991) 211
Si, 1/f noise
– On the field-dependence of $1/f$ noise - Van de Roer 168 (1991) 53
SnS
– Photoconductivity in tin sulphide single crystals - Elkorashy 168 (1991) 257
Sound vorticity interaction
– Interaction of second sound acoustic waves with a counterflow-induced turbulent field - Fiszdon et al. 168 (1991) 93
Specific heat, CsNiF3
– Finite chain results for the magnetization and specific heat of $CsNiF_3$ - Campana et al. 168 (1991) 153
Specific heat, liquid transition metals
– Specific heats of liquid transition metals calculated from the temperature derivative of the one-component plasma structure factor - Yokoyama and Naito 168 (1991) 229
Specific heat, $NdCu_5$
– Magnetism and crystal field in $NdCu_5$ - Diviš et al. 168 (1991) 251

Spin chain
– Finite chain results for the magnetization and specific heat of $CsNiF_3$ - Campana et al. 168 (1991) 153
Spin-glass behaviour
– Magnetic ordering in $Er_{1-x}U_xGa_2$ systems - Markin et al. 168 (1991) 197
Spin–lattice relaxation, nuclear
– The two-level systems role in nuclear relaxation at low temperatures - Buishvili et al. 168 (1991) 205
Spin–lattice relaxation time
– EPR and optical absorption studies of a VO^{2+}-doped $Co(NH_4)_2(SO_4)_2 \cdot 6H_2O$ single crystal - Misra et al. 168 (1991) 170
Spin reorientation, in $Er_2Fe_{17}C_x$
– Magnetic and crystallographic structural changes in ternaries of the type $Er_2Fe_{17}C_x$ - Kou et al. 168 (1991) 181
Spin reorientation, $NdCu_5$
– Magnetism and crystal field in $NdCu_5$ - Diviš et al. 168 (1991) 251
SQUID
– On the thermodynamics of a superconducting ring interrupted by a weak superconducting junction III - De Wolff and De Bruyn Ouboter 168 (1991) 67
$Sr(CH_3COO)_2 \cdot \frac{1}{2}H_2O$
– EPR study of a single crystal of Mn^{2+}-doped — at 295, 77 and 4.2 K - Misra and Korczak 168 (1991) 143
Superconducting tunnel junctions
– Quasiparticle current in a superconducting junction with two potential barriers at the metal interfaces - Ovsyannikov and Babayn 168 (1991) 239
Superfluid acoustics
– Interaction of second sound acoustic waves with a counterflow-induced turbulent field - Fiszdon et al. 168 (1991) 93
Superfluid turbulence
– Interaction of second sound acoustic waves with a counterflow-induced turbulent field - Fiszdon et al. 168 (1991) 93
Surface phonon dispersion
– The shift of — curves due to defects in alloy disordered surfaces - Khater et al. 168 (1991) 273
Surfaces, disordered
– The shift of surface phonon dispersion curves due to defects in alloy disordered surfaces - Khater et al. 168 (1991) 273
Synchrotron topography
– Study of the Morin transition in nearly perfect crystals of hematite by diffraction and topography - Kvardakov et al. 168 (1991) 242

Thermal conductivity
– Mori approach to — in disturbed one-dimensional phonon systems - Chvosta and Wagner 168 (1991) 291
Thermodynamic fluctuations in a SQUID
– On the thermodynamics of a superconducting ring interrupted by a weak superconducting junction III - De Wolff and De Bruyn Ouboter 168 (1991) 67
Three-phase systems
– A Monte Carlo renormalization group study of zero and finite temperature conductivity of a three-phase system - El-Misiery et al. 168 (1991) 128

Transition metal–carbides
– Tight-binding calculations of structural energetics of — - Le et al. 168 (1991) 285
Transition metals, liquid
– Specific heats of liquid transition metals calculated from the temperature derivative of the one-component plasma structure factor - Yokoyama and Naito 168 (1991) 229
Tutton salts
– EPR and optical absorption studies of a VO^{2+}-doped $Co(NH_4)_2(SO_4)_2 \cdot 6H_2O$ single crystal - Misra et al. 168 (1991) 170

Vacancy-ordered compounds
– Tight-binding calculations of structural energetics of transition metal–carbides - Le et al. 168 (1991) 285
Valence band structure
– X-ray emission spectra and — of the 3d transition metal oxides - Galakhov et al. 168 (1991) 163
Variation modified hypernetted chain approximation
– The pair distribution functions of the liquid alkali metals - Gonzalez et al. 168 (1991) 39
VO^{2+} ion
– EPR and optical absorption studies of a VO^{2+}-doped $Co(NH_4)_2(SO_4)_2 \cdot 6H_2O$ single crystal - Misra et al. 168 (1991) 170
Vortex line density
– Interaction of second sound acoustic waves with a counterflow-induced turbulent field - Fiszdon et al. 168 (1991) 93

X-ray diffraction, of $ErFe_{17}C_x$
– Magnetic and crystallographic structural changes in ternaries of the type $Er_2Fe_{17}C_x$ - Kou et al. 168 (1991) 181
X-ray emission spectroscopy
– X-ray emission spectra and valence band structure of the 3d transition metal oxides - Galakhov et al. 168 (1991) 163

YFe_4Al_8
– Crystal structure, magnetic and electrical properties of YFe_4Al_8 single crystals - Chełkowski et al. 168 (1991) 149
